ABOUT ME

Software Development student at CETI (Centro de Enseñanza Técnica Industrial), currently in my 7th semester of the “Tecnólogo Profesional en Desarrollo de Software” program, expected to graduate in July 2026. Eager to expand my technical knowledge and adapt to new tools, with a strong interest in backend development and cloud infrastructure. Passionate about problem-solving, continuous learning, and collaborative teamwork. Currently improving my English through private lessons.

RELEVANT PROJECTS

Batch Processing – Local Pipeline

(SoftServe Academy – Big Data Crash Course)

GitHub:

https://github.com/Chava33165/DrivenPath/tree/chapter_3/chapter_3

- Built a Dockerized data pipeline with Airflow.
- Implemented bronze–silver–gold architecture and dbt transformations.
- Developed four analytical tables: financial, technical, non-PII, and PII with role-based access.
- Managed data validation using PostgreSQL / pgAdmin4.
